Subject: Requesting Nomination for Knowledge Co-Creation Program (Long-Term) on “Universal Health Coverage Program (JFY 2025)” (PhD Course in Nursing) at Juntendo University

Dear Sir,

1. Announcement of Knowledge Co-Creation Program (Long-Term)

We are pleased to inform you about the above-mentioned PhD course scheduled to be held in Japan from October 2025 to September 2028. We are enclosing the General Information Booklet (G.I.) on this course for your information and further necessary action.

2. Recommendation of JICA Bangladesh Office

The Universal Health Coverage (UHC) program (PhD) course is designed for the government officials who are working in nursing administration, services, or education and have completed a Master of Science in Nursing from NIENER or Overseas (preferred 2 years master's education) is desirable. Kindly note that the participants should be below forty (40) years of age or under in principle (As of April 1st, 2025).

This program is co-organized by Japanese Universities and JICA for the participants from partner countries and offers an opportunity to study the respective academic fields in PhD degree courses, especially focusing on Global Nursing Leadership Course.

Through this program, participants will gain a deep understanding of areas pertaining to the achievement of UHC in Japan, so that they may use this knowledge to contribute to the development of home countries. Also, it is expected that participants will play a significant role as a leader in the respective fields after their return, fostering a long-lasting bilateral relationship between each respective country and Japan. Please be noted that MOHFW and JICA has been implementing “Capacity Building of Nursing Services (Phase2)” with a close collaboration with DGNM, and we highly expect a candidate to contribute an enhancement of the nursing administration, education and services in this country.

The participants are expected to serve the same/similar position for a significant period after completion of training.

3. Application

One (1) seat may be allocated for Bangladesh for this training for Universal Health Coverage. We request you to send 4 (four) applications by **January 20, 2025**, in accordance with the selection criteria/qualification described in the section 7: Eligibility of the G.I. as attached. Please pass the above information to concerned departments of your government and request them to send an Application Form for each applicant (through ERD) to JICA Bangladesh Office.

Universal Health Coverage (UHC) Program

Graduate School of Health Care and Nursing,

Juntendo University

Enrollment October 2025

ユニバーサル・ヘルス・カバレッジ (UHC)

順天堂大学大学院医療看護学研究科 (2025 年 10 月入学)

This handout provides an overview of the "Universal Health Coverage (UHC)" program/course, which is one of Japan International Cooperation Agency (JICA)'s Knowledge Co-Creation Program (Long-Term). The program will be implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between respective governments.

The objective of the Knowledge Co-Creation Program (Long-Term) is to offer opportunities to people from partner countries to study at higher educational institutions in Japan and to help them build their network of people. This is intended to assist in the human resource development plans of the governments of partner countries and Japan, and eventually to expand and strengthen bilateral ties between the partner countries and Japan.

Each country may have its own schedule and/or qualifications for the program. With regard to additional information, please contact JICA overseas office in your country.

Background

What is JICA Knowledge Co-Creation Program (KCCP)

The Japanese Cabinet released the Development Cooperation Charter in June 2023, which stated, “In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other and grow and develop together.” JICA believes that this ‘Knowledge Co-Creation Program’ will serve as a foundation of mutual learning process.

What is JICA Development Studies Program (JICA-DSP)

JICA-DSP is being carried out by JICA as part of official development assistance (ODA) by the government of Japan. JICA-DSP is offered for international scholars accepted as the participants of JICA's Human Resource Development Project who are enrolled in a degree program at a Japanese university.

<https://www.jica.go.jp/dsp-chair/english/dsp/overview/index.html>

1. Overview

Since 1954, JICA has provided training programs as part of technical cooperation in various fields. In order to further strengthen networks between the target countries in respective fields and to foster young and mid-career bureaucrats, academicians and leading human resources who are capable of influencing policy making processes or contributing to socioeconomic development in their countries, JICA has established the JICA Development Studies Program (JICA-DSP).

The program, "Universal Health Coverage (UHC)," was established in Japanese Fiscal Year (JFY) 2020 under the framework of JICA-DSP.

Participants of the UHC program will enroll in Master's/Ph.D. courses related to UHC and have the chance to learn from Japanese developmental experiences through a special curriculum offered by the JICA-DSP.

2. Objectives

- (1) To strengthen the health policy formulation and the implementation and service provision capacity in the Government or academic/health institutions and other relevant organizations to contribute to attain UHC in respective partner countries.
- (2) To build and strengthen strategic partnership between partner countries and Japan.

Master of Science (MS) Program in Nursing
Doctoral (PhD) Program in Nursing

Juntendo University

Department of Nursing

Master's Program

Admissions Policy

The purpose of this program is to further develop skills that can help support people's health at all levels by acquiring the ability to develop nursing science in a practical and creative manner. This program further aims to advance a deeper understanding for the dignity of life and human existence by utilizing advanced practical abilities to respond to changes in the health, medical, and welfare environments, in addition to education and research capabilities in the field of nursing.

Desired student profile:

- 1) A well-rounded character with academic ability, and a clear desire to study or research at a graduate school level.
- 2) Active in the clinical or educational fields of health, medical care, and welfare with the ambition to improve as a nursing professional.
- 3) A strong interest in nursing science or nursing practice and an eagerness to engage in academic activities after entering the school.
- 4) A willingness to contribute to society as a skilled nursing practitioner, nursing educator, or nursing researcher.

Curriculum Policy

For those entering the Master's Program, a **Special Research Course (SRC)**, a **Global Nursing Course (GNC)**, and a **Certified Nurse Specialist Course (CNSC)** * have been established to further develop nursing practitioners, educators, and researchers. The SRC curriculum is designed to explore the theory of nursing science and enhance the research ability necessary to build on this theory, while the GNC curriculum provides the research capabilities needed to contribute to global health challenges. The CNSC curriculum is designed to examine advanced practical and research abilities in the field of practice.

The results of the students' research and study are evaluated comprehensively based on criteria specified in advance. The outcomes of these evaluations will be used to facilitate improvements in our approach to education.

- 1) General Subjects
The SRC, the GNC, and the CNSC general education courses are offered to students to acquire a wide range of knowledge that will serve as the foundation for research methods, ethics, and learning.
- 2) Specialized Subjects
Specialized subjects are provided to students to obtain the ability to perform, either locally or internationally, in the roles of advanced nursing practitioners, educators, and researchers in their respected fields.
- 3) Practice and Research Guidance
For those enrolling in the SRC or GNC, the main focus will be on specialized research, while those entering the CNSC, issue-based research will be conducted. Practice guidance is provided to identify specific issues, where students will acquire advanced specialized research methods, and be required to prepare a master's thesis to develop the ability to logically summarize academic results.

* Certified Nurse Specialist Course (CNSC) is currently unavailable for Global Nursing Course students.

Diploma Policy

A Master's in Nursing degree will be granted to those who have been enrolled in the standard 2-year term of study, earned the credits required for completion, obtained the qualifications and abilities stated below, and passed the review and final examination of their master's thesis or thesis research project.

- 1) The ability to engage in specialized research in the nursing field with high ethical standards.
- 2) The ability to systematize the extensive knowledge necessary to demonstrate a high level of expertise and practice a high quality of nursing care.
- 3) The ability to contribute globally to society through advanced nursing practice, research, and educational activities.

Department of Nursing

Doctoral Program

Admissions Policy

The purpose of this program is to further develop skills that support people's health at all levels by acquiring the ability to develop nursing science in a practical and creative manner. Furthermore, this program aims to develop talent who can play an active role internationally by applying rich academic knowledge and can independently advance research in the field of nursing, further contributing to improvements in health and novel developments in the medical environment.

Desired student profile:

- 1) A well-rounded personality who is inquisitive and willing to pursue research independently from the perspective of nursing science.
- 2) A strong intellectual interest in the field of nursing with the aim of achieving world-class research.
- 3) A desire to contribute to the development of nursing science and the improvement in the quality of nursing care as an advanced nursing practitioner, science educator, or science researcher by utilizing the higher education and research abilities acquired.

Curriculum Policy

The Doctoral Course consists of general subjects, specialized subjects, and practice and research guidance with the aim of cultivating research abilities to pioneer new fields, such as nursing support for individuals, their families supporting them, and people living in the community. The aims of the **Nursing Research and Development Course** curriculum are the development of educational support for nurses and the establishment of nursing provisional systems. For the **Global Nursing Leadership Course** curriculum, the objectives are to develop talent who can take a leadership role in developing high quality nursing systems and management for countries, regions, and diverse cultures worldwide.

The results of the students' research and study are evaluated comprehensively based on criteria specified in advance. The outcomes of these evaluations will be used to facilitate improvements in our approach to education.

- 1) General Subjects
The purpose of these general education subjects is to link high quality research results based on the ability to explore the essence of nursing science with high ethical standards and a sense of responsibility.
- 2) Specialized Subjects
The purpose of these specialized courses is to enable students to conduct practical research on a wide range of health and nursing issues. Students acquire more advanced research skills, such as verifying knowledge and technologies in nursing science and establishing new theories and methodologies. They learn about nursing issues and research approaches related to their own research themes from a multidisciplinary perspective and cultivate an academic foundation. Based on the fields of the master's program (MS), 13 subjects will be established with the aim of instilling advanced specialized knowledge and academic perspectives on nursing support development, management systems, and educational support for individuals, the families who support them, and people living in the community.
- 3) Practice and Research Guidance
Nursing Practice and Nursing Special Research have been established with the aim of acquiring research abilities that will sharpen and deepen the research necessary for instructors, researchers, and managers who are capable of conducting educational and research activities at nursing universities and health organizations in Japan and overseas. Furthermore, to nurture highly specialized professionals with scientific perspectives in health, medical, and welfare fields to exercise their educational and research abilities.

Diploma Policy

The degree of Ph.D. (Nursing) will be granted to those who have been enrolled in the standard 3-year term of study, earned the credits required for completion, obtained the following qualifications and abilities stated below, and have passed the review and final examination of their doctoral dissertation.

- 1) The ability to research and develop new theories and nursing care based on high-level academic knowledge, advanced specialized knowledge, and practical ability.
- 2) The ability to contribute to academic exchanges and health care activities on an interdisciplinary and international basis as a leader, manager, educator, or researcher with outstanding expertise, ethics, and a heightened sense of responsibility.

[Privacy Policy]

The participants/applicants are requested to understand Privacy Policy of JICA as follows.

(1) Scope of Use

Personal information specified in this form will be stored, used, or analyzed by JICA only within the scope of conducting, supervising and follow-up of JICA's technical training (long-term) (selection, coordination, travel and life support of the participants in Japan) which is stipulated in the Japan International Cooperation Agency Organization Regulations. The personal information contains also medical history information and health certificate.

JICA will provide the personal information to the universities that the applicants wish to enroll.

Once the candidate is accepted by a university, JICA will make a contract for the implementation of the program with that university.

JICA will not use the acquired personal information for purposes other than the above.

JICA will take safety management measures for the acquired personal information and manage it appropriately in accordance with the privacy policy and internal rules.

(2) Provision of acquired personal information to a third party

JICA shall never provide personal information to third parties except as required by law.

However, in the following cases, we will provide personal information and will take the following measures.

(a) in the case of contracted universities for the implementation of the program

The use of the personal information is limited to the scope of the commissioned tasks (implementation of the program) and JICA will request the commissioned party to take safety management measures and manage it appropriately, and will confirm the implementation status.

(b) In the case of uncontracted universities for the purpose of admission screening

The use of the personal information is limited to the admission screening of the applicants by universities (career, academic background, research plan, medical history information and medical certificate), and JICA will notify the applicants of the name of the universities to which the information is provided and the privacy policy of the universities at the time of its provision.

*Information Security Policy of JICA in relation to Personal Information Protection

■ JICA will properly and safely manage personal information collected through Application Forms in accordance with JICA's Privacy Policy and the relevant laws of Japan concerning protection of personal information and take protection measures to prevent divulgence, loss or damages of such personal information.

■ Unless otherwise obtained approval from the Applicant him/herself or there are valid reasons such as disclosure under the laws and ordinances, etc. and except for the reasons 1-3 below, JICA will neither provide nor disclose personal information to any third party. JICA will use personal information provided only for the purposes in 1-3 below and will not use the information for any purposes other than those described in 1-3 below without prior approval of the Applicant him/herself

1. To provide the KCCP to Participants.
2. To provide the KCCP to Participants under the Citizens' Cooperation Activities.
3. In addition to 1 and 2 above, if the government of Japan or JICA determines it necessary in technical cooperation.

※JICA's policy for the transfer of personal data from the European Economic Area (EEA) to outside the EEA (to Japan and third countries);
JICA has revised "Bylaws for the implementation of Personal Information Protection" which was published based on Japan's legislation by adding new provisions regarding how to deal with personal data within the EEA in order to meet General Data Protection Regulations (GDPR's) requirements for data protection. Based on the new bylaws, JICA entered into the EU Standard Contractual Clauses (SCCs) which allows us to transfer personal data from offices within the EEA to offices outside the EEA (in Japan and third countries).

【Copyright Policy】

The participants are requested to comply with the following;

1. The participants shall use all the documents provided for the KCCP (including texts, materials, etc.), within the scope approved by each copyright holder.
If the participants apply to online KCCP, the participants shall also comply with terms of use of copyrighted works for the online KCCP that are shown on the JICA website
(https://www.jica.go.jp/english/our_work/types_of_assistance/tech/acceptance/training/index.html)

2. All the documents for the KCCP (including reports, action plans, presentations, etc.) shall be prepared by the participants themselves in principle. If the participants use a third party's work (reproduction, photograph, illustration, map, figures, etc.), which is protected under the laws and regulations in the participants' country or copyright-related multinational agreements, the participants shall obtain a license to use the work within the scope approved by the copyright holder.

3. The participants shall agree that JICA may use the documents prepared by the participants (including but not limited to reproduction, public transmission, distribution and modification) for other programs conducted by JICA (for example, as reference for other KCCP courses and project formulation).

【Portrait Right Policy】

During the implementation period of KCCP, JICA (including hired photographer and program implementing partners) will shoot photographs and video footage mainly for the following purposes:

- ・ Use on the website or in SNS administrated/operated by JICA,
- ・ Use in JICA publications (public relations magazines, annual reports, journals, etc.) in printed or electronic form,

*Photos and images taken will not be used for commercial purposes and the participants' personal information will not be disclosed to any third party without the consent of the participants.

JICA would appreciate it if the participants of KCCP grant the participants themselves portrait right license to JICA for photos and images taken described above. It is, however, not a requirement of KCCP. The participants do not agree to grant the participants themselves portrait right license to JICA, has absolutely no problem in participating KCCP. JICA respects the intention of each Participant.

・ I understand and fully agree to the following terms and conditions set forth above.

・ I will be subject to any penalties imposed as a consequence of my failure to abide by the above terms and conditions

・ I understand the intention of JICA on "Portrait Right Policy" mentioned above, and my intention for usage/publication of photographs and videos including the portrait of myself by JICA for the purpose above is as follows:

Research Plan and Career Plan₈

Write a brief research plan of your proposed Master's or Ph.D. thesis more than 700 words (minimum 3 pages).

Below is an example of the structure of the research plan. Usage of this structure is not essential but strongly recommended.

(a) TITLE of your Master's or Ph.D. thesis

(b) INTRODUCTION (1 paragraph):

To state clearly what your research interests are. Necessary to include the followings:

- Background information regarding the selected topic and your involvement (e.g. what is the main reason that you chose the topic, your relevant working experience, etc.)
- The main objective of your study

(c) MAIN BODY (approximately 3 paragraphs):

To provide specific information to support your ideas. To explain what you are going to study and how the research is conducted.

Necessary to include the followings:

- Brief explanation for your analysis of this topic.
- Brief explanation for your research methodology.

(d) CONCLUSION (1 paragraph):

To stress the most important point(s) of your research plan, and your future work. Necessary to include the followings:

- The skills which you wish to obtain in Japan.
- How you intend to utilize your research to solve the issue(s) mentioned in the first part of the plan after returning to your home country.

*For Ph.D. courses, please attach your master thesis in English and related papers (if any).

!! IMPORTANT !!

✓It is recommended to make prior contact the faculty before submitting the applications in order to know whether or not the university can accept the research plan. You should write the research plan in light of the requirements and characteristics of the Master's or Ph.D. course.

✓It must be demonstrated that your academic background and/or job experience are sufficient enough to engage in and complete the Master's or Ph.D. course in Japan. In this regard, it is essential for you to select a research theme which is associated with your current or future job.

✓If you are currently employed, it is desirable for you to discuss with your organization to get supporting references, such as a policy and/or strategic paper of the organization.

Career Plan after Graduation₈

In connection with the fields of study, please describe your idea /plan to utilize your knowledge, skills and experiences that you obtained in Japan after returning to your home country in 400-500 words.
